15:10-15:30	Working on LITMUS-MAIN: Sum up and consolidating future work

Workshop on LITMUS-MAIN: “Online elicitation of narrative texts: Summarizing experience and making plans”

Dates: 25.-27.01.2021, 13:30 - 15:30/15:50 CET

Zoom link: can be received after the registration at costmain@leibniz-zas.de

Meeting Description: The workshop brings together researchers working on the *Multilingual Assessment Instrument for Narratives* (MAIN), who have been eliciting data online in the last year(a). The goal of the workshop is to share the experience of creating video procedures for elicitation and to find out the possibilities of parallelization of these procedures. Divergences from the standard off-line MAIN data collection will be discussed as well. Furthermore, the first version of the MAIN-app and the ‘Text&Tea with MAIN’ homepage with the information on bimonthly meetings will be presented. We will discuss the short- and long-term plans of the joint work.

We invite anyone who is interested to join the workshop, which will be held virtually via zoom. Registration is free. Please register online until January 23rd, 2021 by writing an email with the subject line “Registration” to costmain@leibniz-zas.de. We will send you the Zoom link after the registration.

Program Information: The program of the conference meeting will be available on our website <https://www.leibniz-zas.de/en/> under **Events**.
