

3rd Workshop on Gaps and Imprecision in Natural Language Semantics

Note that this is a hybrid event. Online presentations are marked with a * on the program.
All times are in Central European Summer Time (GMT+2).

Tuesday, October 8

9:45-10:00	opening remarks
chair: Keny Chatain	invited talk
10:00-11:00	Benjamin Spector (Institut Jean Nicod/ENS): <i>Weak and strong readings of anaphora and trivalence</i>
11:00-11:20	coffee break
chair: Andreea Nicolae	contributed talks
11:20-12:00	Itai Bassi (ZAS) and Moshe E. Bar-Lev (Tel Aviv University): <i>*A stress-free alternative to a Homogeneity presupposition</i>
12:00-12:40	Flavia Naehrlich, Harmen de Weerd, Rineke Verbrugge and Angeliek van Hout (University of Groningen): <i>Children's Acquisition of Non-maximality in Plural Definite Sentences with Context</i>
12:40-14:00	lunch break
chair: Janek Guerrini	contributed talks
14:00-14:40	Omri Doron (MIT): <i>*Disjunctive inferences and presupposition projection</i>
14:40-15:00	Flavia Naehrlich (University of Groningen): <i>Unifying underspecification in bare plural generics and plural definite sentences</i>
15:00-15:20	coffee break
chair: Jad Wehbe	contributed talks
15:20-16:00	Maik Thalmann (Georg-August-Universität Göttingen) and Andrea Matticchio (UMass Amherst): <i>On being certain that presuppositions don't project universally</i>
16:00-16:40	Shrayana Haldar (MIT): <i>*Unifying Weak Necessity and Habituality through Homogeneity: A Case from Bengali</i>
17:00	social event @ ZAS

Wednesday, October 9

chair: Nina Haslinger	invited talk
10:00-11:00	Nadine Bade (Universität Potsdam): <i>Finding the gap or filling it? Experimental measures of undefinedness</i>
11:00-11:20	coffee break
chair: Benjamin Spector	contributed talks
11:20-11:40	Angèle Bernard (Nantes Université): <i>Distinguishing homogeneity from presuppositions: reassessing the data from polar questions</i>
11:40-12:00	Stefan Milosavljević (Karl-Franzens-Universität Graz): <i>*Where does the multifunctionality of 'lexical' cloning come from? A unified account of prototypicality, precisification and domain widening</i>
12:00-12:40	Janek Guerrini (Goethe-Universität Frankfurt): <i>Articulating gradability, dimension selection, and homogeneity in color adjectives</i>
12:40-14:00	lunch break
chair: Maik Thalmann	contributed talks
14:00-14:20	Comfort Ahenkorah (Yale) <i>*Navigating number marking in Akan nominals and predicates</i>
14:20-14:40	Jia Ren (UMass Amherst): <i>*Associative Plurals as Definites</i>
14:40-15:00	coffee break
chair: Nadine Bade	contributed talks
15:00-15:20	Angèle Bernard (Nantes Université): <i>Processing non-maximal readings of plural definites: A mouse-tracking investigation</i>
15:20-15:40	Jia Ren (UMass Amherst): <i>*English definite numerals and nominal conjunctions are different</i>
15:40-16:00	coffee break
chair: Nina Haslinger	invited talk
16:00-17:00	Jad Wehbe (MIT): <i>Redundancy and presuppositional exhaustification</i>
18:00	social dinner
